Leadership roles in Finance & Operations

EXECUTIVE SUMMARY

Finance leader with **18+ years** across global financial services who owns the finance function end-to-end — **order-to-cash, invoicing & billing, accounts receivable, collections, account reconciliations, financial reporting, and statutory compliance (GST, TDS, US GAAP & Ind AS)** across India and the US. Builds and automates invoicing, collections, and reconciliation systems with strong internal controls, accurate documentation, and audit readiness — and brings a rare edge: production-grade **Agentic AI** (LangGraph, RAG, LLMOps) applied to finance operations and controls. Ex-State Street, IIM Kozhikode MBA, Six Sigma Black Belt, and former CISO with six consecutive years of zero material ITGC/SOC1 findings.

ORDER-TO-CASH, RECEIVABLES & COMPLIANCE

Invoicing & Billing	End-to-end invoicing & billing ownership · accurate and timely invoice issuance · billing-discrepancy resolution in coordination with clients and internal teams
Accounts Receivable	AR operations · payment tracking · collections & follow-ups · reducing outstanding dues / DSO · receivables cash-flow monitoring and regular leadership reporting
Reconciliation & Records	Account reconciliations · accurate financial records & documentation · financial reporting · month-end close · audit support and compliance documentation
Statutory Compliance	GST · TDS · statutory & regulatory compliance across India and the US · audit-ready documentation · internal controls and governance
Systems & Tools	Building & improving invoicing, collections & reconciliation systems · process automation · Zoho Books · QuickBooks · advanced MS Excel & Power Query · ERP / accounting platforms

AI & AGENTIC ENGINEERING

Agentic Orchestration	LangGraph multi-agent pipelines · supervisor / worker routing · reflection & revision loops · tool-using agents · stateful workflows · agentic memory
RAG & Retrieval	Qdrant vector DB · Sentence Transformers · multimodal RAG (CLIP) · PDF / document RAG · domain knowledge bases · semantic retrieval
LLM & LLMOps	Azure OpenAI (enterprise) · Groq · Llama 3 · local / private LLMs · prompt routing · monitoring & logging · evaluation harnesses
AI App Engineering	Python · FastAPI · Streamlit · PostgreSQL · Pandas · API & service design · prototype-to-deployable delivery
Responsible AI	Human-in-the-loop · AI risk controls · auditability · policy enforcement · data privacy by design · enterprise AI governance

AI FINANCE SYSTEMS — DESIGNED & BUILT

AI Finance OS **FLAGSHIP** Python · FastAPI · LangGraph · PostgreSQL · Streamlit

Production-oriented autonomous finance operating layer — LangGraph-orchestrated agents for bookkeeping, MIS generation, **invoice, intercompany, and reconciliation workflows**, and CFO decision dashboards, built on a FastAPI service with PostgreSQL state and a Streamlit control surface.

NAV Break Investigation Agent LangGraph · Azure OpenAI · Qdrant RAG · LLMOps

Break Detection, Investigation, and Reflection agents with a Qdrant-backed RAG layer over NAV validation rules and investigation playbooks, plus an LLMOps governance layer for routing, logging, and evaluation.

SOI Review Agent 8-agent pipeline · PDF extraction · ASC 946 RAG · preventive controls

Eight-agent pipeline automating Schedule of Investments review under US GAAP ASC 946 — PDF extraction, SOI detection, structured-data building, specialized validation, prior-cycle comparison, and a preventive-control agent grounded by a RAG knowledge base.

Timesheet Intelligence Multi-agent · Groq · Llama 3 · risk scoring · tool use

Sequential Data → Policy → Risk → LLM Insight → Reflection agent pipeline that surfaces only high-risk billing and utilization exceptions, with a project-effort calculator tool for risk-weighted prioritization.

Enterprise Ethics Multimodal RAG · CLIP · local

Fully local, multimodal RAG system for corporate ethics guidance; CLIP retrieves policy diagrams and text simultaneously — governed AI advisory with no external data exposure.

Agentic RAG Cover Letter App Agentic RAG · Streamlit

Writer–Reflection–Revision agent loop over RAG-grounded context with configurable generation controls, delivered as a Streamlit application.

PROFESSIONAL EXPERIENCE

McLaren Strategic Solutions — Vice President, Head of Finance Jun 2025 – Present

- Own the finance function end-to-end — order-to-cash, invoicing & billing, accounts receivable, account reconciliations, financial reporting, and statutory compliance (GST, TDS, US GAAP / Ind AS) across India and the US.
- Run monthly, quarterly, and annual close; develop financial strategy, forecasts, and internal controls; monitor cash flow related to receivables and provide regular updates to leadership.
- Drive AI-enabled finance transformation — agentic automation of invoicing, collections, reconciliation, reporting, and controls; partner with senior leadership on strategic decisions.

State Street, Bangalore — Sr. AVP / AVP / Sr. Manager, Financial Reporting Jul 2018 – Jun 2025

Progressive growth: Sr. Manager (2018) → AVP (2020) → Senior AVP (2023)

- Built and led client-facing production teams delivering US GAAP–compliant financial statements and reconciliations on schedule, improving client satisfaction and retention.
- Oversaw ITGC and SOC1 audits with a record of zero material findings; accountable for reporting systems and data-feed integrity.
- Managed post-M&A cross-functional integration (e.g., Syntel, HCL JVs); led P&L optimization and process re-engineering.

HSBC EDPI, Gurgaon — Manager, Business Finance Dec 2016 – Jul 2018

- Finance business partner for global operations — strategic insights, budgeting, forecasting, and CFO-level financial models.
- Engineered advanced data consolidation and reporting tools (Excel, Power Query), improving accuracy and timeliness across functions.

Ameriprise, Gurgaon — Trainer → Group Leader, Financial Reporting & Tax Oct 2010 – Dec 2016

- Grew from Fund Accounting trainer to Group Leader across financial reporting and tax, building deep accounting and reconciliation foundations.
